

1	<p>What is the precise problem to be tackled? Partnerships should look to tackle the problem with the biggest numbers e.g. is it attempted burglary, burglary without loss or burglary with loss?</p>
2	<p>What outcome(s) do we want to achieve and by when? How do these relate to the problems identified?</p>
3	<p>How will the option achieve the desired effect? What is the <i>mechanism</i> for achieving the result intended?</p>
4	<p>What evidence is there to support this approach? Has anything similar been done elsewhere? If so, was it well evaluated and was it successful?</p>
5	<p>What else needs to happen for it the option to work? Under what circumstances will the option achieve the intended outcome? Does it depend on specific conditions or resources, or on support from relevant interests? If so, are these conditions present or can they be created?</p>
6	<p>How much do we need to do to make a difference?</p>
7	<p>How will we know if it is working? How and how often will progress be measured? Who will undertake the work?</p>

8	<p>What resources will be needed?</p> <p>What start up costs, staff time; capital and running costs are likely to be required, and how will these be met?</p> <p>What could be provided 'in kind'?</p>
9	<p>What will the positive or negative side effects be?</p> <p>Is there evidence of any type of displacement?</p> <p>Has there been a change in the number of void properties?</p>
10	<p>Will the benefits outweigh the costs?</p> <p>Will the outcomes be worthwhile?</p> <p>Could the resources be better used on an alternative option?</p> <p>Does the option represent 'Best Value'?</p>
